TEJAL KAUTHE

+91-7559184954 tejalkauthe11@gmail.com LINKEDIN PUNE

OBJECTIVE

Eager to start a professional journey in a growth-oriented organization where I can learn and contribute effectively. Skilled in Java Full Stack development, with hands-on experience in web application development, database management, and responsive design. To work in a highly professional and motivated ambience in order to enhance my skill to grow as a better human being & provide benefit to the organization from my work to the best of my ability.

EDUCATION

BE(IT) | Sir Visveswaraya Institute of Technology ,Nashik 80% | *2025*

XII (HSC) | K.J. Mehta junior college ,Nashik 81.83% | 2021

X (SSC) | Madhyamik vidyalay palse , Nashik 82.60% | 2019

EXPERIENCE

Java Full Stack Intern | Unique System Skills , Pune (June 2025 - *Present)*

- Built and maintained full-stack web applications using Java (Spring Boot) for backend and HTML, CSS, JavaScript, React.js for frontend development.
- Designed and developed RESTful APIs for data communication between frontend and backend. Worked with MySQL and Hibernate for database interaction.
- Deployed applications on Apache Tomcat and tested responsiveness across devices .

Java Intern | R3sys , Nashik *(Jan 2023 - Feb 2023)*

- Developed and debugged Java-based applications using Core Java, JDBC, and Servlets.
- Participated in code reviews, improving code quality and understanding of software development practices.

SKILLS:

- **Programming Languages :** JAVA ,JAVASCRIPT
- **Web Development :** HTML , CSS
- **Database Management :** SQL , MYSQL
- **Version Controls :** Git , GitHub
- **Frameworks & Libraries :** SPRINGBOOT ,REACT.JS , BOOTSTRAP ,HIBERNATE ,AXIOS
- **Tools :** ECLIPSE , POSTMAN ,SWAGGER ,VITE , VS CODE

PROJECTS

❖ **Drainage Blockage Monitoring and Detection System Using IoT : BE Project 2024-25**

- Developed a Drainage Blockage Detection and Monitoring System using Arduino sensors to track water flow and send blockage alerts. Built the backend using Java, JDBC, Servlets, and JSP, with MySQL for data storage, enabling real-time monitoring through a web interface

❖ **Student Grader**

- Developed a full-stack web application for conducting online exams and automating student grading.
- Built RESTful APIs in Spring Boot and designed a MySQL database for managing students, exams, and results.
- Created a responsive React.js + Bootstrap frontend for seamless exam-taking and admin management. Implemented secure authentication, real-time validations, and smooth integration between frontend and backend components.
